

### About...

#### Humanity & Inclusion

"Humanity & Inclusion is an independent and impartial international aid organisation working in situations of poverty and exclusion, conflict and disaster. We work alongside people with disabilities and vulnerable populations, taking action and bearing witness in order to respond to their essential needs, improve their living conditions and promote respect for their dignity and fundamental rights".

[www.hi.org](http://www.hi.org)

#### About... Innovation and Knowledge Management Unit

"The team aims to enrich, alongside other sectors of the Technical Resources, knowledge and practices of technical and operational divisions of the association. The team sets up and runs a dynamic collective learning to improve the identification, capitalization, sharing and appropriation of innovations and good practices. This mission is guided by the strategic orientations of the federation and requires the involvement of different actors in the organisation."

#### Publications contact

### Creation of collections and editorial coverage

Professional collections have been built up to give more visibility and to promote Humanity & Inclusion's know-how and technical expertise. So, in order to gather publications – which were scattered until now- in a global project of knowledge sharing, **ten collections** were created: Policy paper, Guidance note, Practical guide, Lessons learned, Research and studies, Educational resources, Project evaluation, Wide angle, Institutional policies and Institutional directives ([learn more](#)).

These collections offer **stabilized contents** to provide a **framework** to technical and operational teams for the implementation of projects on the field. So these documents explain how Humanity & Inclusion has to work in such sector for example.

### A specific format for field's publications

In each collection, a specific "Satellite document" format allows a greater publishing flexibility (court chain of edition). The contours of this format have evolved in order to identify and enhance the publications that directly come from the field. They are now referred to as "From projects". This format thus gathers **contextualized contents** that are directly linked to the experiences and expertise of programs and therefore to the actions realized at the scale of a country, an area.

### Re-packaged formats for a better appropriation

In a desire to support appropriation, three additional formats –for the moment– are proposed to re-package the content from publications:

- The **brief**, which summarizes in 4 pages the initial content of a publication,
- The **appropriation videos**, which offer an original video format coupled with an animated PowerPoint,
- The **quiz**, which allows to know a publication, and to test their knowledge.

All publications are available on SkillWeb at:

<http://www.hiproweb.org/>

## Institutional policies

- **Project Planning, Monitoring and Evaluation Policy + Project quality framework (2015)**  
Available in [English](#), [French](#) and [Spanish](#) / Available in [English](#), [French](#) and [Spanish](#) brief format  
/ Includes a **Project quality framework** Poster ([English](#), [French](#) and [Spanish](#))
- **Mission, Scope of activity, Principles of intervention, Charter, Visual identity (2009)**  
Available in [English](#), [French](#) and [Spanish](#)
