PREAMBLE

Since its creation in 1982, Handicap International has focused on creating and implementing appropriate solutions to the needs and expectations of persons with disabilities and populations facing poverty, conflicts and catastrophes.

Over the years, the development of our organisation and our activities, the increasingly professional nature of our interventions and our public commitment have broadened, structured and strengthened our movement.

In establishing the Handicap International Federation, our network of national associations is creating a strong, united international organisation, the aims and ambitions of which are:

- to improve the effectiveness and extend the reach of Handicap International’s actions,
- to increase its legitimacy and enhance its influence world-wide,
- to strengthen and preserve its cohesion and identity,
- to develop and sustain the resources it needs for its actions.

These bylaws set forth the organisation and functions of the Federation. Its governance will be transnational thereby ensuring:

- it has a recognised international identity,
- it is independent and speaks with one voice,
- unity of mission and principles of intervention.

This new federally-structured organisation will have full authority to:

- decide and carry out international aid and development work, advocacy actions and to bear witness,
- mobilise and organise interdependent resources,
- enhance the contributions of its fully interdependent constitutive bodies and develop synergies,
- represent Handicap International, establish cooperation and contract alliances with national or international institutions and organisations.

The Federation will take into account the contributions of all its member associations, together with their cultural, administrative and financial specificities, and will embody both the joint ownership of the common enterprise and the primacy of the general interest.

***
1. CREATION

The Handicap International Federation is created by the existing national associations signing the by-laws hereby pursuant to the French law of July 1st, 1901 concerning associations (“Loi du 1er Juillet 1901”).

2. NAME

The name of the association is: Handicap International Federation (hereafter the “Federation”).

3. PURPOSE

International aid and development mission:

The Federation’s action is aimed at:

- populations at risk of diseases, violence or accidents liable to cause disability;

- vulnerable populations and in particular disabled persons and persons living with chronic disabling diseases;

- refugee populations; persons living in disaster areas or persons displaced by crises, conflicts and catastrophes, especially those among them who are vulnerable, injured and disabled;

- persons threatened by weapons, munitions and explosive devices during or in the aftermath of military conflicts.

The purpose of the Federation’s action is:

- to rapidly and sustainably improve the living conditions of people, communities and populations, with the aim of attaining the highest possible level of well-being;

- in the context of a crisis, to protect the life, health and dignity of victims and affected persons by providing appropriate relief and offering adapted solutions.

The Federation carries out its mission:

- by taking direct action with the populations concerned, and notably with vulnerable groups and disabled people;

- by coordinating our actions, establishing partnerships or supporting other operators;

- by assuming our role as an independent, non-religious, non-political, non-profit and non-governmental organisation with regard to the people benefiting from our actions, national and international institutions, professional organisations and the general public;

- by influencing the behaviour and policies of stakeholders and institutions through dialogue, the dissemination of Handicap International’s principles and recommendations, and reference to relevant Human Rights and International Humanitarian Law conventions.
Management and coordination of the Federal Network:

At the supranational level, the Federation embodies the federal network which is constituted by its member associations (hereafter the “Federal Network”). The Federation has responsibility and full authority for:

- ensuring that the global and general interests of Handicap International’s mission prevail over each members associations’ individual interests and over any national concerns that might be pertaining to them;

- deciding the Federal Network’s multi-annual strategy;

- ensuring all its members associations apply the multi-annual strategy at the national level;

- defining the policies and management rules applicable to the whole network and ensuring its members associations comply with these rules and policies;

- deciding and overseeing the operational activity of international aid and development projects on behalf of its members associations;

- implementing the network’s advocacy and political action on an international level, in countries where there is no member association, and ensuring the coherency of advocacy actions carried out on a national level by its member associations;

- developing the Federal Network by creating or admitting new members associations to the Federation;

- creating any new entity to promote the Federal Network’s interests.

4. MEANS OF ACTION

In order to carry out its purpose, the Federation will pursue its aims by:

- implementing actions in areas such as risk prevention or management, the development of individual capabilities and adaptation to environmental factors, on the basis of up-to-date methodological approaches adapted to the context;

- supporting people, associations and communities as well as technical and administrative services in the countries of intervention;

- contributing towards national and international policy-making, in line with the Federation’s scope of competence and range of activities;

- raising awareness, informing and mobilising public opinion, at a national and international level;

The Federation is created for an unlimited duration, from the date of its publication in the Official Journal of the French Republic (“Journal Officiel de la République Française”).

8. RESOURCES

The Federation’s resources are composed of the financial contributions made by its members and of any other resources that the Federation may deem useful, including all resources allowed by laws and regulations.

9. FEDERAL GENERAL ASSEMBLY

9.1 REPRESENTATIVES TO THE FEDERAL GENERAL ASSEMBLY

9.1.1 Principles

Members of the Federation have the right to attend federal general assembly meetings and have a right to vote pursuant to the following provisions:

Boards of trustees of national Handicap International associations appoint their representatives to the federal general assembly of the Federation (hereafter a “Representative” or the “Representatives”).

The Chairperson of the national associations’ board of trustees is the legal Representative of the member association at federal general assembly meetings.

The other Representatives are appointed for a three (3) year period from their appointment.

Employees of members associations or employees of the Federation shall not be appointed as Representatives.

In case of resignation, permanent non-availability or exclusion of a Representative, a new Representative will be appointed to replace the former Representative by decision of the board of trustees of the member association concerned. The Representative will be appointed for the unexpired term of office of the former Representative.

In case of temporary non-availability of a Representative preventing him or her from attending a federal general assembly meeting, the member association’s board of trustees may nominate a replacement for the needs of this assembly. This replacement will be subject to the same rules on incompatibility that apply to all Representatives.

Representatives have the right to attend and vote at federal general assembly meetings and each of them shall have one (1) vote.

Each member association has a fixed number of Representatives, as further described below in Article 9.1.2 and 9.1.3.
9.1.2 Appointment

As of September 18, 2011, the allocated number of Representatives for each member association is as follows:

- Handicap International France: twenty-nine (29) Representatives,
- Handicap International Belgium: ten (10) Representatives,
- Handicap International Luxembourg: five (5) Representatives,
- Handicap International Switzerland: five (5) Representatives,
- Handicap International Germany: three (3) Representatives,
- Handicap International U.K.: two (2) Representatives,
- Handicap International Canada: two (2) Representatives, and
- Handicap International U.S.A.: three (3) Representatives.

9.1.3 Modification of calculation method and update of the number of Representatives

(a) The method for calculating the number of Representatives allocated to each member association is given in the Rules of Procedure.

The number of Representatives allocated to each member association will be calculated by the federal board of trustees based on the method of calculation in force. This calculation will be made every three (3) years, and for the first time, three (3) years from the day of creation of the Federation.

Prior to the triennial calculation by the federal board of trustees of the number of Representatives to be allocated to each member association, the federal board of trustees may present a proposal for amending the method for calculating the number of Representatives allocated to each member association to the extraordinary general assembly.

When no revision is made of the method of calculation by an extraordinary general assembly, the number of Representatives allocated to each member association will be updated at the due date and according to the method of calculation in force.

The number of Representatives allocated to each member association, as provided hereby in Article 9.1.2, shall remain unchanged if the member association cannot agree on the modification of the calculation method, and if the federal board of trustees is unable to implement the existing calculation method.

(b) The federal board of trustees shall also update the number of Representatives of each member association (i) in case of loss of membership of one or several member association(s), or (ii) further to the accession to the Federation of one or several new member association(s).

(i) In case of loss of membership of a member association, the departing member will therefore have no Representative and the aggregate number of Representatives will be reduced accordingly. This modification shall become effective from the date of loss of membership.

(ii) In case of accession to the Federation of a new member association, the new member will be allocated one (1) Representative until the next modification of the method of calculation of the number of Representatives, which shall occur within three (3) years of
the federal general assembly meeting approving the membership to the Federation of the new member association. This modification shall become effective from the date of accession to the Federation of the new member association.

(c) Unless otherwise provided in the by-laws, the modification of the number of Representatives and of their allocation among the members associations shall not cause (i) to allocate to Handicap International France, less than one third (1/3) of the Representatives having the right to vote at federal general assembly meetings, or (ii) to allocate to Handicap International France more than half (1/2) of the Representatives having the right to vote at federal general assembly meetings, or (iii) to allocate to any other member association more than one third (1/3) of the Representatives having the right to vote at federal general assembly meetings.

The number of Representatives of Handicap International France or of the members associations will be increased or reduced, in order to comply with provisions of this paragraph (c).

9.2 GENERAL PROVISIONS
